European Union Registry

EU Emissions Trading System (EU ETS) and Kyoto System Closure of person holding accounts and trading accounts

The closure of a person holding account or trading account may be applied for in the Union Registry online at any time, provided there are no allowances or certificates in the account.

For this purpose, the authorised representative should click on <Close> under the tab <Account main> of the account to be closed and then on <Confirm account closure>.

An application number (identifier) will be displayed which you should enter in this form along with the account identifier and the name of the account holder.

Please return the completed account closure application via the Virtual Post Office (VPS) to DEHSt or send us your printed application signed by the authorised representatives of the account holder by mail.

The account closure will only take effect when the DEHSt Registry Administration has confirmed it. The authorised representatives will be told about the completed account closure by the Union Registry via an email which will include the application number (identifier).

Additional authorised representatives and representatives with approver only role cannot apply for an account closure.
